## ALARM 998
(ROM PARITY ERROR)

A ROM parity error has occurred.

Cause and corrective action

The ROM, or the printed–circuit board on which the ROM is mounted, is defective.

```
SYSTEM ALARM                          0666-02
998 ROM PARITY :ROM No.

              0E2        ┐
                         │  The name of the ROM in which the parity
                         ├  error was detected is displayed.
                         │
                         ┘
```

Also, check the control software series and edition displayed at the right corner of the screen.
